LlfE Project

Project in brief

• The LlfE Project is funded by KOICA to ILO for Technical Assistance to assist the Ministry of Labour and Employment (MoLE), Department of Labour (DoL) to improve overall quality of employment services through public Employment Service Centres (ESC).

• The project contributes at:
  • improving the quality of employment services through strengthened client orientation and capacity building;
  • improving the collection and dissemination of labour market information and skill indicators; and
  • knowledge sharing under the ILO South-South cooperation Framework are the core components of this project.
ESC’s Establishment

• Under new Nepal Development initiatives in 2010, the Government of Nepal established 14 ESCs under Department of Labour, Ministry of Labour and Employment to manage labour and promote the employment activities.
Enhancing Youth Employability
LIfE Project - Achievements, Interventions and Best Practices

Enhancing Youth Employability

Employing Agencies

ESC

Workforce
Trainees/Jobseekers

Training Institutes
Enhancing Youth Employability

Role of ESCs:
- Facilitate for appropriate employment

Role of LIfE Project:
- Technical Assistance

LIfE Project - Achievements, Interventions and Best Practices

Working together with Sector based Industry Association for workplace based Training

- Participants selection and counselling through ESCs
- Cost sharing basis implementation
- Job guarantee after training
LifE Project - Achievements, Interventions and Best Practices

Functional integration of Migration Resource Centre & ESCs

- Exchange of information
- Refer for counselling

Community based interventions

- Mapping of employment opportunities
- Collection of information and counselling to job seekers
- Matching job seekers with employment opportunities
Design and development of public job portal and LMI data Management System

Some examples of Nepal job portals:

**PESC Job portal characteristics**

- Integration of information with available various job portals
- ISCO based national classification of occupation
- Design for better match of skills demand and supply of LM
LIfE Project - Achievements, Interventions and Best Practices

Employment Services

• For job seekers
  • Access to job vacancy information
  • Assistance in job search techniques
  • Assist in training referrals
  • Assist in OJT placements
  • Provide counselling services
  • Assist in job placement

• For employers
  • Assistance in job vacancy advertisements
  • Assistance in shortlisting/selection/interviews in recruiting process
  • Assist in providing apprentice

• For youth
  • Awareness campaigns
  • Career guidance and counselling for school/college graduates
Lesson learnt and challenges

• Huge gap in demand and supply side information
•Limited capacity of HR particularly in database mgmt., counseling and employment services
•Sustainability of HR and programmes of ESCs
•Motivation for Business and Industries/Employers in ESC activities
•More collaboration and coordination with other ministries, TVET institutions and partner organization
Concluding Remarks

Employment Services in Nepal is comparatively new and KOICA supported LIfE Project is milestone in changing such services.

- Quality improvement is continuous process, it’s journey, not a destination
- More **sharing and coordination** for better Employment Services and finally be in the TEAM

Thank you!

- **M** - More
- **A** - Achieves
- **E** - Each
- **T** - Together
MANY THANKS
