At the session, **Eugenio Donadio from Goodwall** will be introducing their mobile-first platform and technology that they leverage to provide digital learning and upskilling pathways for youth based on experiential learning. Working alongside global and local partners, Goodwall has developed an inclusive environment where young people can come together to support and learn from each other while building, testing and showcasing their skills. Over the past years, Goodwall has created and scaled up partnerships with influential actors such as UNICEF, GIZ, Generation Unlimited and PwC, among others, which led them to host virtual programmes and launch hybrid online-offline initiatives. As Chief Impact Officer at Goodwall, Eugenio oversees the Business Development department and leads the Social Impact work of the organization. He has a background in civil and management engineering, and started his career in the international development sector, working for over 10 years across 20+ countries leading humanitarian responses for crises such as Syria, Gaza, Ebola and Zika.
