This report describes how entrepreneurship competence is embedded in vocational education and training (VET) in Italy.

It complements existing knowledge with examples of methods, tools and approaches that can help policy-makers, VET providers and other stakeholders build better entrepreneurial learning ecosystems.

The report is based on the pilot research of Cedefop's study *Entrepreneurship competence in VET*. It is part of a series of eight national case studies (Spain, France, Croatia, Italy, Latvia, Austria, Sweden and Finland) and the forthcoming final report.
