This course aims at increasing national actors capacities in the design, implementation and monitoring-evaluation of labour market programmes and employment services in different national contexts.

This course aims at increasing national actors capacities in the design, implementation and monitoring-evaluation of labour market programmes and employment services in different national contexts. It promotes knowledge, experience and best-practice sharing between countries. Participants will identify priorities and key actions to undertake for improving efficiency of labour market programmes and employment services in their countries, and in particular, the programmes they are in charge of in their institution.
