This course aims at improving the management of Training Centers responding to the needs of the labour market, while maximizing internal and external efficiency.

The course is addressed to directors and staff of public and private training institutions; representatives of employers'/workers' organizations active in TVET; staff of ministries of labor and education (when dealing with technical education); other professionals dealing with development of HR. A gender-balanced participation is sought. Modules, group work and participant's presentation include definition and troubleshooting on education/training; planning; organization; management of personnel; control and evaluation impact; budgeting and financing; round table on autonomy of Training Centers.
