World Future Council, UNDP and the Inter-Parliamentary Union, with the support of the ILO, Youth Policy Labs and the Office of the UN Secretary-General's Envoy on Youth kick off a global call for nominations to identify and honour the world's most successful policies enabling youth empowerment. The award will highlight policies that advance the economic empowerment of young people in decent and sustainable jobs, for instance, youth skills development programmes that pave the way for youth to build the green economy we need. It also seeks to identify youth entrepreneurship or programmes targeting marginalized groups, including women, as well as policy and legislative frameworks that enable more civic engagement and political participation of youth.
