Germany's success in the healthcare sector is reinforced by its training expertise. 'Training – Made in Germany' offers the necessary know-how to meet the challenge in the field of vocational education and training. Germany has a long-standing tradition in this field and enjoys a high reputation for the demand-driven and practical orientation of its qualification programmes. The integration of professional, social and methodological competencies characterises the kind of knowledge German partners can provide. This document presents eight success stories of skill development in the health and geriatric care sector, realised in a joint effort by German and international partners.
