The Further Education and Training (FET) Strategy is intended to provide a framework for the establishment and development of a strong FET sector in Ireland. It aims to deliver a higher quality learning experience leading to better outcomes for all those who engage in FET. The strategy presents a roadmap and implementation plan to realise the vision of a world-class integrated system of further education and training in Ireland which will: support economic development; increase social inclusion; and meet the needs of all learners, communities and employers who engage with FET. The strategy is set within a context of Government reform of public services.
