Inspiring choices on skills and jobs in Europe Skills Panorama turns labour market data into accurate and timely intelligence to offer new insights into skill needs in the European Union. Labour markets and skill needs are constantly evolving. Skills Panorama helps policy-makers, policy-experts, researchers and guidance practitioners to keep up with the latest developments, make useful comparisons to previous trends or identify anticipated changes. Skills Panorama aims to foster the development or improvement of skill needs assessment and anticipation; which in turn, is a milestone for education and training systems becoming more responsive to labour market needs; and for better matching of skill supply and demand across the EU. Skills Panorama is brought to you by the European Commission, Directorate-General for Employment, Social Affairs and Inclusion and powered by Cedefop, the European Centre for the Development of Vocational Training.
