This volume offers comprehensive, practical guidance to developing and implementing apprenticeship programmes.

This Toolkit combines diverse national good practices with ILO experience, it includes over 125 tools and guides from more than 40 countries and institutions worldwide. Each tool can be adapted to fit national and local contexts and applied in different countries. Besides apprenticeship programmes, this Toolkit can also be used for other TVET programmes. For example, it contains tools for identifying skills needs, preparing occupational profiles and curricula, and developing instructional and learning materials and post-training transitions and evaluations.
