Open 383360eng.pdf	Technical and Vocational Education and Training (TVET) connects education and the world of work, unlocking the potential of young people and adults for a brighter future. Yet, it is estimated that 267 million young people are not in employment, education or training. This strategy presents UNESCO's vision to transform TVET for successful and just transitions during the period 2022 to 2029, by promoting skills development for empowerment, productive employment and decent work, and facilitating the transition to more digital, green and inclusive economies and societies.
