G20 Labour and Employment Ministers Meeting

"Coordinated employment and education policy making is vital to ensure this and next generations have the skills needed for the future of work", ILO Director-General, Guy Ryder

G20 Ministers reiterated the importance of putting education at the centre of the international political agenda and ensuring equal access at all levels and all types of training throughout life, as a strategic response to the global crisis generated by the health emergency.

Latest news

The ILO and the Federation of Egyptian Industries (FEI) are implementing an apprenticeship programme for Egyptian youth and refugees in Greater Cairo

The programme will support beneficiaries to obtain high-quality education through the enhancement of their technical skills, as part of the ILO's efforts to link them with decent job opportunities. [Read more](#)

ILO's entrepreneurship programmes to be integrated in Cambodia's national education curriculum

Key facilitators and government officials from the Cambodian Ministry

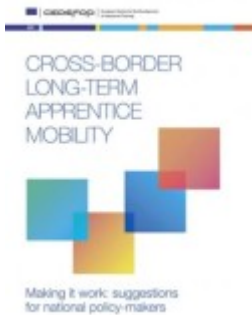

developed. Departing from previous research and policy work, this publication synthesizes lessons learnt and proposes a methodology to perform national system reviews encompassing career guidance, career education and career development support to workers.

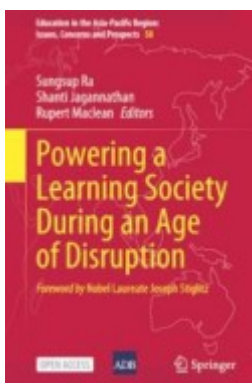

ILO: Technical and Vocational Education and Training (TVET) mapping for refugees, asylum seekers and host communities in Egypt

The objective of this study is to map the relevant features of the Egyptian formal and non-formal TVET system that facilitate or hinder the access of refugees at the national level, and to assess the capacity of local formal and non-formal TVET providers in the three main areas of interventions of the PROSPECTS' " Education and Learning" programme.

CEDEFOP: Cross-border long-term apprentice mobility

Based on a 2019-20 Cedefop study, this guiding paper invites policy makers at national level to reflect on the challenges that hinder cross-border long-term mobility of apprentices (CBLTMA) today and proposes tips and policy suggestions to overcome them in the future.

ADB: Powering a Learning Society During an Age of Disruption

This Asian Development Bank's publication discusses closing the digital gap, improving learning assessment, financing technological innovations, providing students with access to hardware, and ensuring teachers and students know how to maximize the technology. It also calls for dedicated resources to promote lifelong learning and for communities to have a greater role in promoting learning.

World Bank: Meta-Analysis Assessing the Effects of Virtual Reality Training on Student Learning and Skills Development

This paper presents a meta-analysis of the results of available studies that assess virtual reality training's impact on student learning and skills development, and which rely on robust evaluation methods. The study's primary purpose is to identify the extent to which immersive

training can successfully develop students' skills across different fields of education and the size of the effects encountered.

Community of Practice on Digital Skills and Digitalization

Funzi presented at the June session of the CoP

Funzi is a Finnish startup working towards solving the global problem of access to quality education. It offers a mobile learning service that has a great potential to be utilized particularly in remote locations where mobile connections are limited. It also provides no-data services in more than 60 countries through its partnership with Facebook. Please contact Mr Karl Sorri (Partners and Content Specialist) at karl@funzi.fi for more information. Also, if you are interested in joining the CoP, please register [here](#).
